

Business and Residential Notice

LAKE SAWYER

In Treatment Area In ¼ Mile Notification Area

Distribution Date: *Friday, August 6, 2021*

Lake Sawyer will be treated with Procellacor and Rodeo/Habitat on or between August 23rd and September 15th. The target date for the first treatment will be Monday, August 23rd weather permitting. A second treatment for lilies may occur the week of September 6th.

Product(s) planned for use: *Procellacor, Rodeo, Habitat*

Active ingredient(s): *Procellacor is Florpyrauxifen-benzyl, Rodeo is Glyphosate, Habitat is Imazapyr*

Plants/Algae targeted: *Eurasian Milfoil will be treated with ProcellaCOR, Fragrant Water Lilies will be treated with Rodeo or Habitat and a surfactant. Both species are on the state noxious weed list and control is necessary.*

Location of treatment(s): Lake Sawyer. See attached map or go to this link <https://arcg.is/TTbqW>

The applicator will post signs in the treated and potentially affected areas no more than 48 hours prior to treatment. The signs will describe any water use restrictions or advisories.

If you are withdrawing water for potable or domestic water use, livestock watering, or irrigation, and have no alternate water source, please contact *Aquatechnex* at 360-527-1271 to arrange an alternate water supply.

Note: Business and residential notification only goes ¼ mile from each treatment site. Check the product label to ensure that treatment does not impact potable water users more than ¼ mile from treatment area.

If you want additional notification prior to treatment, or have further questions, please contact me using the following information. City of Black Diamond, Attn: Mona Davis mdavis@blackdiamondwa.gov (360) 851-4528

This herbicide treatment is regulated under a permit issued by the Washington State Department of Ecology. Permit No. WAG994517
